Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 4, 8 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Ermer et al (Us Patent No 4,378,610).

Ermer et al teaches a method and apparatus as claimed.

See entire document, especially Fig. 2 , 3 and Description of the Preferred Embodiments.

Ermer et al teach a method and apparatus for cleaning with brushes with grounded conductive bristles. The disclosed bristles eliminate electrification of the substrate to be cleaned and are in contact with a plurality of the portions of the substrate to be cleaned during cleaning. The bristles are capable of coming and into contact and capable of separating from the substrate to be cleaned.

Response to Arguments

3. Applicant's arguments filed 4/4/06 have been fully considered but they are not persuasive. The applicants amended the claims and argue that Ermer et al do not teach invention as claimed.

The examiner disagrees. The bristles disclosed by Ermer et al have a shape of a pin, they are hold in the way that they are capable of advancing and retreating, they maintain contact with the substrate at least for some time, they contact a plurality of portions of the substrate, they are grounded and they are conductive.

The examiner understood that the apparatus, which is presented on Figures 1-3 and a method of the use of the referenced apparatus is different from what is disclosed by Ermer et al. However, what is recited by the instant claims is anticipated by the disclosure of Ermer et al.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alexander Markoff whose telephone number is 571-272-1304. The examiner can normally be reached on Monday-Friday.
